

(v) Exemption (k)(5) is claimed with respect to the requirements of 5 U.S.C. 552a(c)(3) and (d) because this system contains investigatory material compiled solely for determining suitability, eligibility, and qualifications for Federal employment. To the extent that the disclosure of material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence, the applicability of exemption (k)(5) will be required to honor promises of confidentiality should an individual request access to or amendment of the record, or access to the accounting of disclosures of the record. Similarly, personnel investigations may contain evaluation material used to determine potential for promotion in the armed services. Application of exemption (k)(7) is necessary to the extent that the disclosure of data would compromise the anonymity of a source under an express promise that the identity of the source would be held in confidence, or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence. Both of these exemptions are necessary to safeguard the integrity of background investigations by minimizing the threat of harm to confidential sources, witnesses, and law enforcement personnel. Additionally, these exemptions reduce the risks of improper influencing of sources, the destruction of evidence, and the fabrication of testimony.

(vi) All information in this system that meets the criteria articulated in exemption (k)(6) is exempt from the requirements of 5 U.S.C. 552a(d), relating to access to and amendment of records by an individual. This exemption is claimed because portions of this system relate to testing or examining materials used solely to determine individual qualifications for appointment or promotion to the Federal service. Access to or amendment to this information by an individual would compromise the objectivity and fairness of the testing or examining process.

(2) 5 U.S.C. 552a(e)(1) requires an agency to maintain in its records only such information about an individual as is relevant and necessary to accomplish a purpose of the agency required by statute or by executive order of the President. This requirement could foreclose investigators from acquiring or receiving information the relevance and

necessity of which is not readily apparent and could only be ascertained after a complete review and evaluation of all the evidence. This system of records is exempt from this requirement because in the course of personnel background investigations, the accuracy of information obtained or introduced occasionally may be unclear, or the information may not be strictly relevant or necessary to favorably or unfavorably adjudicate a specific investigation at a specific point in time. However, in the interests of protecting the public trust and national security, it is appropriate to retain all information that may aid in establishing patterns in such areas as criminal conduct, alcohol and drug use, financial dishonesty, allegiance, foreign preference of influence, and psychological conditions, that are relevant to future personnel security or suitability determinations.

(3) 5 U.S.C. 552a(e)(4)(G) and (H) require an agency to publish a **Federal Register** notice concerning its procedures for notifying an individual, at his/her request, if the system of records contains a record pertaining to him/her, how to gain access to such a record and how to contest its content. Since this system of records is being exempted from subsection (f) of the Act, concerning agency rules, and subsection (d) of the Act, concerning access to records, these requirements are inapplicable to the extent that this system of records will be exempt from subsections (f) and (d) of the Act. Although the system would be exempt from these requirements, the NLRB has published information concerning its notification, access, and contest procedures because, under certain circumstances, it may be appropriate for a subject to have access to a portion of that individual's records in this system of records.

(4) 5 U.S.C. 552a(e)(4)(I) requires an agency to publish a **Federal Register** notice concerning the categories of sources of records in the system of records. Exemption from this provision is necessary to protect the confidentiality of the sources of information, to protect the privacy and physical safety of confidential sources and witnesses, and to avoid the disclosure of investigative techniques and procedures. Although the system will be exempt from this requirement, the agency has published source information in the accompanying notice in broad generic terms.

(5) 5 U.S.C. 552a(f) requires an agency to promulgate rules which shall establish procedures whereby an individual can be notified in response to a request if any system of records named

by the individual contains a record pertaining to that individual. The application of this provision could compromise the progress of an investigation concerning the suitability, eligibility, and fitness for service of applicants for Federal employment and impede a prompt assessment of the appropriate access to the Agency's facilities. Although this system would be exempt from the requirements of subsection (f) of the Act, the Agency has promulgated rules which establish agency procedures because, under certain circumstances, it could be appropriate for an individual to have access to all or a portion of that individual's records in this system of records.

Dated: Washington, DC, November 9, 2016.

## PENSION BENEFIT GUARANTY CORPORATION

### 29 CFR Part 4044

#### Allocation of Assets in Single-Employer Plans; Valuation of Benefits and Assets; Expected Retirement Age

**AGENCY:** Pension Benefit Guaranty Corporation.

**ACTION:** Final rule.

**SUMMARY:** This rule amends the Pension Benefit Guaranty Corporation's regulation on Allocation of Assets in Single-Employer Plans by substituting a new table for determining expected retirement ages for participants in pension plans undergoing distress or involuntary termination with valuation dates falling in 2017. This table is needed in order to compute the value of early retirement benefits and, thus, the total value of benefits under a plan.

**DATES:** Effective January 1, 2017.

**FOR FURTHER INFORMATION CONTACT:** Deborah C. Murphy (*Murphy.Deborah@pbgc.gov*), Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation, 1200 K Street NW., Washington, DC 20005, 202-326-4400 ext. 3451. (TTY/TDD users may call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4400 ext. 3451.)

**SUPPLEMENTARY INFORMATION:** The Pension Benefit Guaranty Corporation (PBGC) administers the pension plan termination insurance program under

Title IV of the Employee Retirement Income Security Act of 1974 (ERISA). PBGC's regulation on Allocation of Assets in Single-Employer Plans (29 CFR part 4044) sets forth (in subpart B) the methods for valuing plan benefits of terminating single-employer plans covered under Title IV. Guaranteed benefits and benefit liabilities under a plan that is undergoing a distress termination must be valued in accordance with subpart B of part 4044. In addition, when PBGC terminates an underfunded plan involuntarily pursuant to ERISA section 4042(a), it uses the subpart B valuation rules to determine the amount of the plan's underfunding.

Under § 4044.51(b) of the asset allocation regulation, early retirement benefits are valued based on the annuity starting date, if a retirement date has been selected, or the expected retirement age, if the annuity starting date is not known on the valuation date. Sections 4044.55 through 4044.57 set forth rules for determining the expected retirement ages for plan participants entitled to early retirement benefits. Appendix D of part 4044 contains tables to be used in determining the expected early retirement ages.

Table I in appendix D (Selection of Retirement Rate Category) is used to determine whether a participant has a low, medium, or high probability of retiring early. The determination is based on the year a participant would reach "unreduced retirement age" (*i.e.*,

the earlier of the normal retirement age or the age at which an unreduced benefit is first payable) and the participant's monthly benefit at unreduced retirement age. The table applies only to plans with valuation dates in the current year and is updated annually by the PBGC to reflect changes in the cost of living, etc.

Tables II–A, II–B, and II–C (Expected Retirement Ages for Individuals in the Low, Medium, and High Categories respectively) are used to determine the expected retirement age after the probability of early retirement has been determined using Table I. These tables establish, by probability category, the expected retirement age based on both the earliest age a participant could retire under the plan and the unreduced retirement age. This expected retirement age is used to compute the value of the early retirement benefit and, thus, the total value of benefits under the plan.

This document amends appendix D to replace Table I–16 with Table I–17 in order to provide an updated correlation, appropriate for calendar year 2017, between the amount of a participant's benefit and the probability that the participant will elect early retirement. Table I–17 will be used to value benefits in plans with valuation dates during calendar year 2017.

PBGC has determined that notice of, and public comment on, this rule are impracticable and contrary to the public interest. Plan administrators need to be able to estimate accurately the value of

plan benefits as early as possible before initiating the termination process. For that purpose, if a plan has a valuation date in 2017, the plan administrator needs the updated table being promulgated in this rule. Accordingly, the public interest is best served by issuing this table expeditiously, without an opportunity for notice and comment, to allow as much time as possible to estimate the value of plan benefits with the proper table for plans with valuation dates in early 2017.

PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this regulation, the Regulatory Flexibility Act of 1980 does not apply (5 U.S.C. 601(2)).

**List of Subjects in 29 CFR Part 4044**

Pension insurance, Pensions.

In consideration of the foregoing, 29 CFR part 4044 is amended as follows:

- 1. The authority citation for part 4044 continues to read as follows:

**Authority:** 29 U.S.C. 1301(a), 1302(b)(3), 1341, 1344, 1362.

- 2. Appendix D to part 4044 is amended by removing Table I–16 and adding in its place Table I–17 to read as follows:

**Appendix D to Part 4044—Tables Used To Determine Expected Retirement Age**

**TABLE I–17—SELECTION OF RETIREMENT RATE CATEGORY**

[For plans with valuation dates after December 31, 2016, and before January 1, 2018]

If participant reaches URA in year—	Participant's Retirement Rate Category is—			
	Low <sup>1</sup> if monthly benefit at URA is less than—	Medium <sup>2</sup> if monthly benefit at URA is—		High <sup>3</sup> if monthly benefit at URA is greater than—
		From—	To—	
2018 .....	631	631	2,665	2,665
2019 .....	645	645	2,724	2,724

## DEPARTMENT OF HOMELAND SECURITY

### Coast Guard

#### 33 CFR Part 165

[Docket Number USCG-2016-1011]

RIN 1625-AA00

#### Safety Zone; Great Egg Harbor Bay, Marmora, NJ

**AGENCY:** Coast Guard, DHS.

**ACTION:** Temporary final rule.

**SUMMARY:** The Coast Guard is establishing a temporary safety zone on the waters of Great Egg Harbor Bay in Marmora, NJ. The safety zone includes all waters within 500 yards of a blasting vessel and equipment being used to conduct bridge pile blasting operations, which is the final phase of the demolition of the Route 9, Beesley Point Bridge bascule span. This safety zone will only be enforced during times of explosive detonation. The safety zone will temporarily restrict vessel traffic from transiting or anchoring in a portion of the Great Egg Harbor Bay while pile blasting and removal operations are being conducted to facilitate the removal of bridge piles from the demolished Route 9, Beesley Point Bridge.

**DATES:** This rule is effective without actual notice from November 21, 2016 through November 24, 2016. For the purposes of enforcement, actual notice will be used from November 15, 2016, until November 21, 2016. During this period the safety zone will only be enforced during times of explosive detonation.

**ADDRESSES:** To view documents mentioned in this preamble as being available in the docket, go to <http://www.regulations.gov>, type USCG-2016-1011 in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this rule.

**FOR FURTHER INFORMATION CONTACT:** If you have questions about this rule, call or email Marine Science Technician First Class Tom Simkins, U.S. Coast Guard, Sector Delaware Bay, Waterways Management Division, Coast Guard;

telephone (215)271-4889, email [Tom.J.Simkins@uscg.mil](mailto:Tom.J.Simkins@uscg.mil).

#### SUPPLEMENTARY INFORMATION:

##### I. Table of Abbreviations

CFR Code of Federal Regulations  
 DHS Department of Homeland Security  
 FR Federal Register  
 NPRM Notice of proposed rulemaking  
 § Section  
 U.S.C. United States Code  
 COTP Captain of the Port

##### II. Background Information and Regulatory History

In June 2013, demolition work began on the Route 9, Beesley Point Bridge between Somers Point and Marmora, NJ. Route 52 Construction, the company performing this demolition work, has completed all demolition of the bridge and piles except the portion of the bridge which has the bascule span opening for the navigational channel. The removal of the remaining piles, which are secured to the sea floor bed, will be completed by using explosives after which the piles and debris will be removed. The Captain of the Port has determined that potential hazards associated with pile blasting operations, beginning on or about November 15, 2016, will be a safety concern for anyone operating within 500 yards of pile blasting operations during times of explosive detonation.

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because the final details for this event were not received by the Coast Guard until November 8, 2016, and the safety zone is needed for blasting and demolition operations which will begin November 15, 2016. It is impracticable to publish an NPRM and consider comments due to the short window of time until the operation begins. Allowing this event to go forward without a safety zone in place would expose mariners and the public to unnecessary dangers associated with explosive detonation.

We are issuing this rule, and under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making it effective less than 30 days after

publication in the **Federal Register** for the reasons we stated above. Delaying the effective date of this rule would be contrary to public interest because the safety zone is needed to begin on November 15, 2016, to protect the public from safety hazards associated with explosive detonation.

##### III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 33 U.S.C. 1231. The Captain of the Port has determined that potential hazards are associated with demolition and pile blasting operations of the Route 9, Beesley Point Bridge, over the Great Egg Harbor Bay, in Marmora, NJ, from November 15, 2016, through November 24, 2016. The rule will provide a safety buffer around the blasting vessel during times of explosive detonation.

The purpose of this rule is to promote maritime safety and protect vessels from the hazards of bridge demolition and pile blasting operations, and to maintain safety of navigation in the Great Egg Harbor Bay, in the vicinity of the Route 9, Beesley Point Bridge. The rule will provide a safety buffer around the crane and barge while demolition operations are conducted, and will provide a safety buffer around the blasting vessel during times of explosive detonation.

##### IV. Discussion of the Rule

On November 15, 2016, demolition work will begin on the remaining portion of the Route 9, Beesley Point Bridge, over the Great Egg Harbor Bay, in Marmora, NJ. The Captain of the Port has determined that the hazards associated with demolition and pile blasting operations requires a safety zone.

The safety zone will be enforced starting on or after November 15, 2016, only during times of explosive detonation, and encompasses all navigable waters in the Great Egg Harbor Bay within 500 yards of vessels and machinery being used to conduct pile blasting and removal operations. The duration of the enforcement of the zone is intended to protect personnel, vessels, and the marine environment in these navigable waters while explosive detonation occurs. There will be two blasting events occurring on consecutive days to complete both piers. Actual dates and times of explosive detonation will be published with a combination of broadcast notice to mariners, local notice to mariners, posted warning signs, 500 yard marine traffic safety zone maintained by the contractors safety boats, a 10 minute, 5 minutes, and 1 minute warning made by the blasting vessel via VHF-FM channel 16,
